

## Miljøkajak will be open from 11<sup>th</sup> April 2022 – 30<sup>th</sup> September 2022

We have amended the rules and its free to sail the kayak as long as you come back with collected trash. Also, there is no requirement for a pre-booking online as there will be a good old-fashioned manual sign-up list.

We will be running regular checks that the trash is collected, delivered to the recycling station and all the sailing equipment is back to the storage. And we are certain that you will help us to run this great initiative together!

*Below are the simple seven requirements – please make sure those are being followed:*

- 1) The miljøkajak will be **located near floating pontoon Thad Jones Vej 2** (red mark on the picture) including the oars, buckets to collect the trash and long trash pickers to catch the garbage from the water

- 2) Small equipment such as life jackets, waterproof bags, and a sign-up list will be

**stored in a storage box** near the pontoon (blue mark on the picture)

- 3) The sailing **can be pre-booked** by using a sign-up list hanging at the storage box and you can only book **maximum of 2 hours**

- 4) To get practical info regarding the **storage box, please send email to [miljokajaksluseholmen@gmail.com](mailto:miljokajaksluseholmen@gmail.com)**

- 5) It's a **"first come, first served"** booking principle, so please ensure that you state the correct date and correct time of sailing, so others can plan their trip accordingly

- 6) **Collected trash needs to be delivered to the recycling station/ Miljøstation BIG Blue container.** For the ones coming from outside of Sluseholmen, there is always a traffic to the recycling station, and you are allowed to ask locals for help with emptying trash. If no one is around, it is ok to leave collected trash on the sailing pontoon just near the kayak.

- 7) **If you get in troubles during sailing, please send a text message to 53700253.**

**Enjoy the sailing, take a good care of our nature, collect trash, and stay safe!**
